ATTRACT & EDUCATE

- Our hands-on Military Recruiting Tool educates young people in the career training available through select military occupational specialties.
- Recruiting stations create interest, spark conversations and generate leads using our Lead Generation module.
- Each recruiting station includes simple controls for ease of operation.
- Each recruiting station will present an exciting and educational experience.
- All stations launch quickly and are designed to maximize up-time.
- Operator-controlled experience can customize difficulty level and time limit.

BUILT-IN LEAD GENERATION CAPABILITY

By Light's catalog of Virtual Recruiting Experiences are innovative, cost effective, easy to operate and maintain recruiting aides that can be customized to your recruiting needs.

Every system is equipped with a Lead Generation module where each recorded user experience can be viewed, filtered, and downloaded. Data is available immediately after the experience has completed and can be easily navigated to by using the provided QR code.

This feature can be accessed across all mobile devices with a capable web browser.

Our solutions offer highly competitive and exciting experiences targeted to promote Military Occupational Specialty (MOS) codes.

Whether at recruiting offices or at indoor and outdoor events, these vocational experiences are designed to attract a crowd and hold the interest of future service men and women, allowing recruiters to connect with a larger group before engaging each candidate individually.

GET TO KNOW OUR VOCATIONAL SYSTEMS

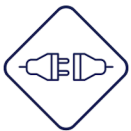

No tools are needed for set-up.

Scoring and leader boards for each experience are included.

Comes standard with four (4) different simulated vocational experiences.

Quick and easy set-up, launched intuitively, and will automatically cycle through various “attract mode” videos when not in active use.

Stand-alone hands-on interactive kiosk uses a touchscreen display, which players operate to engage experiences.

The system is self-contained in a rugged wheeled, water-resistant transport case, which fits through standard 36in doorways and is powered by a single, standard 120VAC, 15A, 60Hz electrical utility outlet.

Kiosk includes capability to easily capture and retrieve player contact information.

HANDS-ON EXPERIENCE KIOSK

VEHICLE OPERATOR EXPERIENCE KIOSK

TABLETOP INTERACTIVE SYSTEM

MINI DESKTOP

The tabletop interactive system incorporates all features of the previous experiences, and includes the addition of:

Comes standard with seven (7) different simulated vocational experiences.

Small footprint.

Under 50 pounds.

WELDER

Utilizing a welding simulator that includes a simulated welding gun, players are taught real-world welding techniques from a first-person perspective.

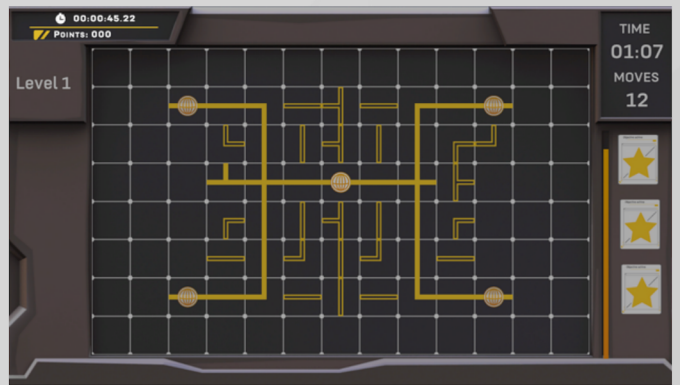

AIR TRAFFIC CONTROLLER

Using the mobile touch-screen platform, the player's goal is to land as many aircraft as possible within a set time limit without any collisions.

IT SPECIALIST

Using the touch-screen, the mission is to set up a network in a FOB (Forward Operating Base) using a limited amount of time.

HEALTH CARE SPECIALIST

Using the touch-screen, players need to triage various medical conditions in a simulated natural disaster environment.

MOTOR TRANSPORT OPERATOR

The player's mission is to drive an Army transport vehicle and deliver as much cargo as possible within a given time limit while avoiding collisions.

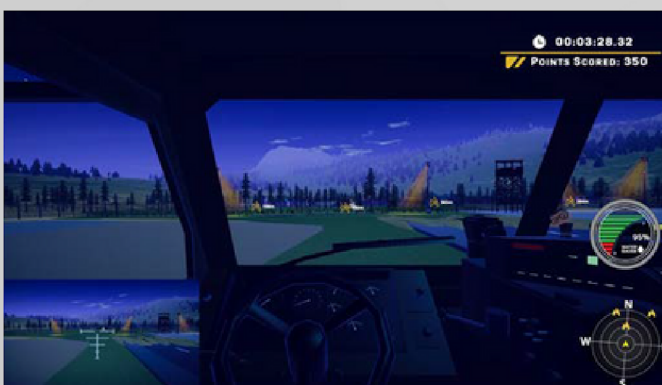

ENGINEERING

The players drive a virtual bulldozer tasked with clearing an FOB after achieving victory.

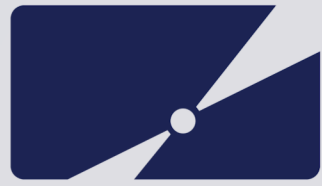

UAS OPERATOR

Players will escort a convoy through hostile territory. Once the threats are identified, the player must protect the convoy.

FIREFIGHTER

Players will drive a fire engine to extinguish the fire in various locations as quickly as possible.
