AN ISO 9001:2008 REGISTERED, SERVICE DISABLED, VETERAN OWNED SMALL BUSINESS

## **FOR IMMEDIATE RELEASE October 2013**

### **BY LIGHT COMPLETED 100<sup>th</sup> IDIRECT HUB IMPLEMENTATION**

ARLINGTON, VA, October 1, 2013 — [By Light Professional IT Services, Inc.](http://www.bylight.com) (By Light), a premier Professional Services Partner (PSP) and Certified Training Partner (CTP) for both iDirect and iDirect Government Technologies (iGT), has completed the company's 100<sup>th</sup> iDirect hub implementation. By Light's team of a dozen certified iDirect hub implementation engineers have worked on short notice, sometimes less than 24 hours, and deployed worldwide to austere locations such as Rwanda, Jakarta, Liberia, and recently to Afghanistan to accomplish this significant milestone. By Light's Director, SATCOM Solutions, Keith Bodiford said, "Teamwork and flexibility on the part of our implementation engineers have been the key to accomplishing this significant milestone. The privilege of implementing our Centennial hub went to our most seasoned engineer, Phil Benavente. Phil's done an outstanding job for us, completing more than 20 solo hub implementation efforts. We look forward to continuing our long standing relationship with both iDirect and iGT."

#### **About By Light Professional IT Services, Inc.**

By Light Professional IT Services is an ISO 9001:2008 registered and certified Service Disabled Veteran Owned Small Business (SDVOSB) specializing in network design and implementation, satellite communications, information assurance, and engineering, installing and testing (EFI&T) services.
