

FOR IMMEDIATE RELEASE

**BY LIGHT AWARDED SUBCONTRACT BY HARRIS CORPORATION TEAM
FOR ARMY MATERIEL COMMAND (AMC) IT SERVICES**

*By Light to provide support for a Full Range of Information Technology (IT) Services
in Support of AMC Redstone Arsenal Operations*

ARLINGTON, V.A. - By Light Professional IT Services, Inc (By Light), an international communications and information technology company, has been awarded a subcontract by Harris Corporation under its recent National Capital Region Contracting Center Army Materiel Command IT Services Award, to provide IT infrastructure for the newly relocated U.S. Army Materiel Command (AMC) Headquarters building at Redstone Arsenal in Huntsville, Alabama.

Under the AMC contract, By Light will engineer, furnish, install and test the command, control, communications, and computer IT (C4/IT) infrastructure, which includes audio-visual and video teleconferencing equipment. The contract includes one base year and two one year option periods, during which time the company would provide operations and maintenance support, as well as help desk capabilities.

“_____” said LTG (Ret) Robert Donahue, By Light’s Chief Executive Officer.

About By Light

By Light, an ISO 9001: 2008 Registered, Service-Disabled Veteran-Owned Small Business based in Arlington, VA, provides a broad range of hardware and software engineering and IT integration services. The company is a well established government contractor that was founded in November of 2002 by a group of industry and DoD professionals with extensive knowledge and experience in both the commercial and federal sectors.
