

FOR IMMEDIATE RELEASE

STEVE KASTIN, MD JOINS BY LIGHT AS CHIEF MEDICAL OFFICER AND CHIEF HEALTHCARE IT STRATEGIST

August 30, 2016, Arlington, VA--- By Light Professional IT Services, Inc. has announced the appointment of Steve Kastin, MD as Chief Medical Officer and Healthcare IT Strategist. A Nuclear Medicine physician by training, Dr. Kastin brings his vast experience in healthcare informatics and healthcare information technology (IT) to By Light by way of the Department of Veterans Affairs (VA).

During his time with the VA, Dr. Kastin served in a number of leadership roles, including Director of Diagnostic Services at the Bronx VA Medical Center, Chief Health Informatics Officer and Chief Information Officer (CIO) for the VA New York/New Jersey Healthcare Network (VISN 3), and Chief Healthcare IT Strategist for the VA's national Office of Information and Technology. Dr. Kastin acted as Chair of the VA's Radiology Informatics Committee for many years, along with several other national committees including the VA's Informatics and Data Management Committee. In addition to the aforementioned accomplishments, he has lectured on topics ranging from medical applications of real-time location systems to the use of "big data", predictive analytics, and the ever-increasing need for effective information security.

Lucy Donahue, By Light Senior Vice President for Federal Healthcare, said "Dr. Kastin's role will be to provide By Light with keen insight into clinical IT needs and processes from a healthcare provider's perspective. Our enhanced comprehension of healthcare provider needs will assist us in the delivery of IT solutions that best fit their workflows, enhancing adoption and effective use. Dr. Kastin will also provide By Light with the strategic foresight of where the medical field is headed, and how best to support emerging needs with information technology. We feel extremely lucky to have someone of Dr. Kastin's caliber on board."

Kastin commented, "I'm extremely excited about the opportunity to work with By Light, continuing to improve the state of healthcare IT and informatics in the federal government, the United States, and, indeed, the world. This has been my passion for over 20 years, and By Light brings together the combination of resources and talent to further this critical goal. Our nation's Veterans deserve nothing less."
